

Research Grants FAQs

How long does it take to review a proposal?

All proposals are assessed by Lantheus' Research Review Committee. This committee meets every two months and proposals must be received 2 weeks prior to the scheduled meeting to be slated for review. All decisions are communicated within one week of the meeting.

Please be aware that Lantheus CANNOT commit to review any research grant submission within a specific time period.

How long does the process take from application submission to receipt of study drug?

The amount of time can differ greatly based upon the type of study, clarity of the submitted application, completion of institution approvals, and the time required to execute an Agreement between Lantheus and your Institution's Grants and Contracts/Legal department. If your proposal is viewed favorably, a Medical Affairs staff member will work closely with you to facilitate the process for study start-up.

Where can I get a copy of the application form?

The application form is found by visiting the Grants section of www.lantheus.com, the form is available in the Research Grants section of the page.

Where do I forward my proposal?

The completed IST application form along with all necessary documents can be submitted to the Research Review Committee by email, fax or post. This information can be found in the Research Grants Program Guidance document in the Grants section of www.lantheus.com. Once your application has been received, you will be sent an acknowledgement at the e-mail address that you indicate on the application.

When will I be contacted about the status of my proposal?

After you submit your application, you will receive an e-mail confirmation. After an initial assessment, you may be contacted to provide additional information prior to Committee review. All communications will occur via e-mail or telephone.

When does Lantheus accept proposals?

We accept applications throughout the year.

Can one investigator receive support for multiple grants?

Yes. Grant applications are based upon individual protocols however; the committee does evaluate the capability of the investigator and research team to manage more than one research grant simultaneously.

May I send the application directly to a Lantheus representative?

No, please submit your application directly to the Research Review Committee using the contact information provided in the Research Grants Program Guidance. Only applications submitted directly to the Research Review Committee through the outlined process will be reviewed.

If my research grant application is approved, should I list Lantheus as the Sponsor of my research?

No, Lantheus is not the Sponsor and should not be listed as such. Where appropriate, Lantheus can be listed as providing research grant support for the conduct of the study.

What types of grant support are available?

Lantheus is able to provide free of charge study drug for marketed products.

Is an Agreement necessary?

Yes, an Agreement or contract is required prior to the initiation of any IST between Lantheus and your Institution. The Agreement outlines the terms for support as well as the responsibilities of the Investigator.

Mandatory disclosure under the Sunshine Act. Institution and Principal Investigator acknowledge that under Section 6002 of the Physician Payment Sunshine Provisions in the Affordable Care Act and commencing on August 1, 2013, Lantheus is required to report payments and other transfers of value provided to you for any purpose, including, but not limited to, the associated cost of vials of Study Drug provided, consulting, speaking engagements, advisory board services, travel, food, royalty payments, and clinical research.

Whom should I contact if I have any questions?

Please e-mail your questions to Research.Grants@Lantheus.com or leave a message at (800) 223-4051 and someone will return your call as quickly as possible.
